

NEBRASKA LICENSEE ASSISTANCE PROGRAM

A SERVICE OF BEST CARE EAP

Did you know.....

The Nebraska Licensee Assistance Program (NE LAP) services include informational presentations on the services of the program and educational presentations on alcohol/drug abuse and addiction and the health professional? These presentations can be made to licensees, certificate holders, and registrants, professional organizations and associations representing health professionals, college or university students enrolled in classes for health professionals and employers of health professionals regulated by the Nebraska Department of Health and Human Services, Division of Public Health, Licensure Unit.

The focus of the informational session, *Nebraska Licensee Assistance Program Services*, is on the availability of, and services provided by, the NE LAP. Educational sessions focus on chemical impairment and alcohol/drug use, abuse and addiction and on the alcohol/drug treatment and recovery process and available treatment services. These sessions are titled *Alcohol/Drug Addiction and the Health Service Professional* and *Understanding the Symptoms of Alcohol/Drug Addiction*.

The presentations are provided by the NE LAP Coordinator, Judi Leibrock, throughout the rural and urban areas of Nebraska. These areas have included Lincoln, Omaha, Hastings, Alliance, Scottsbluff, Grand Island, O'Neill and Mahoney State Park. Presentations can also be provided via a video conference where these technological capabilities are available.

The NE LAP presentations have generally been well received and appreciated by the audience participants as reflected by the following session coordinator comments.

“Thank you Judi for your presentation to our graduating dental hygiene class. I appreciate your expertise in this area and all that you can teach the students. Very good info for them all – especially since there is the likelihood that they will either work with someone who is addicted or they themselves may have to deal with it personally.”

“This presentation was not only beneficial, it was and is essential for our student nurses. It’s very well done and so important!”

“I don’t like to give all “10s” on surveys but I was extremely pleased with Judi’s presentation, as well as the interaction with her to get this set up. She is always professional and extremely cooperative. It is very comforting to know that Judi is the coordinator for such an important program.”

NE LAP informational or educational presentations can be scheduled by contacting the NE LAP at (800) 851-2336 or (402) 354-8055. Information on these presentations and other NE LAP services is also available on our web site at www.lapne.org.
